

Process Control Solutions & Instrumentation

Manufacturer	Product Line Description
	<p><i>Innovative Heating Solutions</i> Heaters – Flexible Surface Heat Products, Heat Trace (Self-Regulating, Constant-Wattage & MI), Digital & Mechanical Temperature Controllers, Composite Curing Heating Products</p>
	<p><i>Clean Water Quality Instrumentation</i> Chlorine - Lab, Portable & Online, Reagents, J.A.W. Chlorine Reagents, Turbidity - Lab, Portable & Online, ProCal Turbidity Standards For Hach® Instruments</p>
	<p><i>Level Products</i> Magnetic Level Gauges, Magnetostrictive Level Transmitters, Armored Level Gauges, Sight Flow Indicators & Specific Gravity Analyzers</p>
	<p><i>Process Analytics - INGOLD™</i> pH, Dissolved Oxygen, Conductivity, Turbidity, Gas O2 TDL, Dissolved Carbon Dioxide Sensors & Transmitters, Process Sensor Housings and Automated Sensor Cleaning & Calibration Systems</p>
	<p><i>Process Analytics - THORNTON™</i> Ultrapure water monitoring instrumentation for the measurement of Conductivity, Resistivity, TOC, Bioburden, Chloride/Sulfate, Dissolved Oxygen and Ozone in determining and controlling water purity.</p>
	<p><i>Digital Meters & Controllers – Flow, Level, Pressure & Temperature</i> Panel Meters, Large Display Process & Temperature Meters & Controllers, Loop-Powered Meters, Multi-Channel Controllers, Annunciators, Digital Pressure Gauges, Totalizers & Batch Controllers</p>
	<p><i>Real-Time Quality Control of Industrial Processes</i> LIF, NIR & UV-VIS Spectroscopy Analyzers for solids, liquids and gases to measure moisture content, color, chemical content, cleaning validation, reaction monitoring and blend uniformity</p>
	<p><i>Temperature Measurement</i> Thermocouples, RTD's, Industrial Assemblies, Thermowells, Specialty Temperature Sensors & Temperature Transmitters</p>
	<p><i>Industrial Measurements</i> Humidity & Temperature, Dew Point, Barometric Pressure, Carbon Dioxide, Moisture in Oil, Hydrogen in Oil, Industrial Continuous Monitoring System</p>
